SELF-LEADERSHIP + SOUL HEALTH

The class will walk participants through the foundational principles of self-leadership, including time-tested theories that will give you the tools to grow yourself and the team members that you lead. The class will walk participants through the foundational principles of emotional wholeness, soul health, personal integrity, personal spiritual disciplines, and spiritual accountability.

STAGES + STYLES OF LEADERSHIP

An important part of leadership is knowing your strengths, styles, and stages of leadership and where you are in your journey so that you can lead and serve others well. This class includes practical assessments and instruction on how to understand your own leadership style, and stage, and identify the leadership styles and stages of others in order to have the most effective working relationships.

SERVANT LEADERSHIP

Jesus redefined leadership and cast a mold contrary to what many in the world envision a leader to be... He served those He led. Throughout this class, you will examine biblical and modern-day examples that will shed light on the essentials of servant leadership. Your journey will take you from the heart-level raw ingredients to actual practices that will empower you to lead in ways that advance God's kingdom purposes in the world.

FINANCIAL STEWARDSHIP

STUDYING + APPLYING BIBLICAL TRUTH

The Bible is very clear on many matters and not as clear on others. For more than 5000 years, people have been debating what God's "real" truth is. God's clear truths and what we believe as a church must be clarified, understood, applied, and articulated in such a way that it shows the heart of 7 Hills Church and, more importantly, the heart of Christ.

BIBLICAL FOUNDATIONS

Arguably, the most influential New Testament Book Christians use for the presentation of the Gospel is Romans. Participants will gain an in-depth understanding of this book and its author: The Apostle Paul.

TEAM BUILDING

This class will cover strategies and processes for growing healthy teams that will, in turn, organically reproduce themselves. Students will learn to identify and correct common dysfunctions of a team. Students will also be guided through healthy and productive steps to build a team and be equipped to "go" and develop teams that will glorify God.

LEADING & LOVING PEOPLE

Leading & Loving People is a class designed to equip students with the best methods for responding to and resolving issues in a variety of situation. There are foundational tools that are appropriate and useful in interpersonal conversations, and this class will equip the students with those foundational elements. Other practical topics include guiding principles for challenging ministry situations, care, and conflict resolution.
